

DEAR SUPPORTER

Hospice care is the total care of a person and their family at that stage of a serious illness when the focus has switched from treatment aimed at a cure to ensuring quality of life.

Patients are cared for in in-patient units or in the community through their local homecare service. Hospice care allows people to live as actively as possible until death. It is about treating someone as a living person and not a dying patient. It is also about providing a vital support system for their relatives and loved ones.

In Northern Ireland there are three independent hospices which offer care entirely free of charge to patients and their families when they need it most. By supporting Ireland's Biggest Coffee Morning you will be helping your local hospice to keep caring for people in your community.

The demand for hospice care is growing. Your local hospice service or fundraising group always needs volunteers to help with the task of raising money. You can really make a difference by registering now as a host for Ireland's Biggest Coffee Morning!

HOST A COFFEE MORNING FOR YOUR LOCAL HOSPICE.

IT'S SIMPLE!

WHEN?

Ireland's Biggest Coffee Morning takes place on Thursday 15th September 2011

HOW?

All you need to do is organise your friends, neighbours or workmates to enjoy a cup of Bewley's coffee and support your local hospice. Bewley's provide the coffee **FREE OF CHARGE**. You simply collect £2 for every cup of coffee. All the money raised helps to provide hospice care in your area.

WHERE?

At home, at work or wherever you can serve and enjoy a good cup of Bewley's coffee.

Complete the attached registration form and send it to your local Hospice, details of which are below.

LOCAL HOSPICE:

PERFECT PREPARATION TIPS FROM THE BEWLEY'S BARISTA ACADEMY.

CAFETIERRE / PLUNGER PREPARATION

- 1 Heat the cafetiere using boiling water.
- 2 Empty water and add one heaped dessert spoon per cup.
- 3 Pour in water that's just off the boil.
- 4 Stir well and let coffee stand for 3 minutes before plunging slowly.
- 5 Serve and savour.

GOLDEN RULES

- 1 Coffee should be stored in a cool dry place.
- 2 Fresh ground coffee should never be exposed to air. Store in an airtight container or seal bag accordingly after use.
- 3 Portion correctly for optimum flavour. Bewley's suggest using 1 dessert spoon of freshly ground coffee per average sized cup.
- 4 Never use boiling water. Boiling water spoils the flavour of the coffee. The best brewing temperature for coffee lies between 91-96 °C.

FREE COFFEE!

Thanks to the generous support of Bewley's, one 227g pack of Bewley's freshly ground coffee (for cafetieres & plunger pots) will be given to 30 or more participants.
